

PISTAWINES

SINCE 2020

In 2020, when we started the PistaWines project, we had the conviction of providing the plants with the best development conditions.

We were far from imagining that after planting in May 2021, it would be possible for us to carry out the first harvest in 2022. The truth is that the vines gave us back the love we gave them and today we can present the first harvest of Tapada da Fonte.

A handwritten signature in blue ink, appearing to read 'António Pista', written over a horizontal line.

SUSTAINABILITY / BIO-DIVERSITY

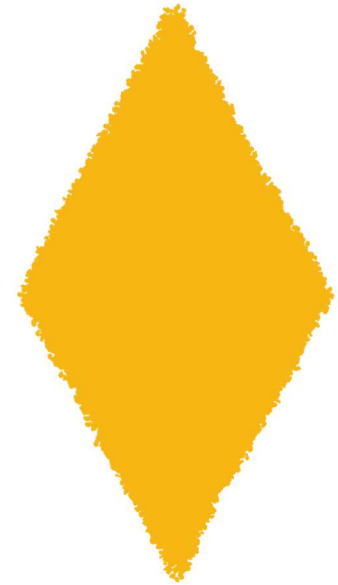

SUSTAINABILITY / BIO-DIVERSITY

- Certification in Integrated Production (PRODI)
- Certification in Global GAP (Good Agricultural Practices)
- Installation of sowing to promote biodiversity in the vineyards
- Installation of bird shelters
- Installation of shelters for bats
- Grazing sheep in the vineyard immediately after harvest
- Promotion of nutrition and vine health instead of treatments
- No use of pesticides or herbicides

OUR BRAND

TAPADA DA FONTE

The spring gives origin to the name of the property, "Tapada da Fonte", which in turn gives the name to the first wines of PistaWines.

TAPADA DA FONTE

OUR WINES

Our House produces elegant wines with the authentic regional character, from selected grape varieties to the natural richness of this unique terroir.

At your hands we want you to have the best our nature can offer. A wine with an elegant, sophisticated character, to be appreciated with the best at your table.
